CAPABILITIES

PPI-Time Zero has produced over fifteen million electronic assemblies for the medical, controls and instrumentation and high-reliability military industries.

PPI-TIME ZERO IS DEDICATED to the delivery of high performance contract manufacturing services to electronics companies around the world. Our customers span the medical, controls and instrumentation and high-reliability military industries. Since 1970, PPI-Time Zero has produced over fifteen million electronic assemblies for these markets.

Many of our customers are known, around the world, as superior examples of manufacturing excellence. As their trusted supplier, they command high performance results from the products and services we deliver.

- Allied Signal Aerospace
- AT&T, IBM, B.F. Goodrich
- Hamilton Sundstrand
- Striker, Howmedica, Osteonics
- Northrop Grumman, Lockheed Martin, Curtiss-Wright Flight Systems
- AdComm Inc., Sperry Corporation and 3M Corporation.

We begin the process with our customer by learning about their product requirements. From the outset, our engineering, design, test and electronics manufacturing services are applied to meet specific challenges. Regardless of the complexity, our advanced

technology solutions are applied through the entire development process to deliver real value to our customers and bring their products to market.

As the electronics industry evolves, PPI-Time Zero keeps pace with the industry's advanced methodologies in product development and manufacturing processes. Our team of experts is the foundation from which we develop products for customers in a diverse group of industries. As a result, we are aware of advanced technologies and can often apply a technology from one industry to another to achieve a superior product. Our approach to customer challenges builds lasting relationships. We measure our success by the high number of customers who return to PPI-Time Zero for new solutions.

Our mission is to be the contract manufacturer-of-choice to electronic manufacturing companies. Through our combined effort, our goal is to bring superior products to market at the lowest possible cost and in the shortest possible time. For over two decades, PPI-Time Zero has demonstrated its dedication, technological resources and reliability. We consistently deliver high-mix, low-to-medium volume production through every stage of electronic assembly.
