

*High Reliability
Military / Aerospace
Programs Experience List*

PPI-Time Zero is dedicated to the production of premier printed circuit board assemblies, sub-assemblies and complete systems integration for use in a wide range of specialized applications.

To qualify and meet the manufacturing and service requirements of the military and aerospace markets, we consistently deliver the highest degree of exacting workmanship and performance.

PPI-Time Zero is proud of our work with the Original Equipment Manufacturers (OEMs) that support the United States Department of Defense and the aerospace market. For over three decades, we have demonstrated our commitment, technological resources and reliability.
